PRICE FIVE CENTS

BANKER P. H. ROY GETS FIVE YEARS

Ex-Speaker of Quebec Legislature and President of Wrecked Bank Convicted.

St. Jean, Que., May 27.—Philippe Roy, president of the Bank of St. Jean, who was last night found guilty of the charge of making false returns to the government, was this morning sentenced to five years in the penitentiary by Judge Monet. This is the maximum penalty for the offence.

The speaker was Wm. W. Umbert, banker, and railroad official, who was present at the trial. He goes to Paris Saturday. He is the same man who created a furor there last week by his sudden and uninvited return to the government after the bank's financial standing. The verdict was not expected and there was no negotiation. His verdict was given just before the end of the trial. Mr. Roy made no sign when he was dieted away. He was accompanied in prison by his son, L. P. Roy, and his wife, Mrs. Roy, of Montreal, Que.

As soon as the verdict was given, George Prosecutor Hubbard asked that the sentence be suspended. Mr. Roy's counsel put in an application for a respite case, claiming various irregularities during the trial.

GRAND COUNCILLOR ATTACKED.

Assassin Makes Furious But Unsuccessful Assail on Chinese Statesman.

The assassin seized before serious injury was inflicted. The would-be assassin was identified as a man named Li Yee Ni. What inspired the attack has not yet developed. Yan Hui-chang, the Chinese statesman, political plot involving rivalry. The number of marriages were crowded and the clerks in the bureaus were required to work several hours longer than usual, due principally to the fact that it was the last Queen's Day in the orthodox calendar. Some 1500 licenses were issued. Only days just ended no marriages are allowed among the orthodox. Be-cause.

BURNED TRYING TO SAVE HIS MONEY

Deckhand on the Cooquiltan Lost His Life Through Fool-Hardiness. Engineer Died in His Last Among Flames Till Pulled Aways.

Vancouver, B.C., May 27.—Unable to withstand temptation to try to save his money and wash from burning, Hans Larson deckhand on the steamer Cooquiltan, lost his life through fool-hardiness on that vessel, an hour after he had been pulled ashore by eastern British Columbia port. With others of the crew, Larson sought the flames to get his pay, which he knew would get his valuables, he started down the starboard aisle of the ship. The ship was burning furiously at the time and when the blaze was extinguished he was found lying face down in the water with his hands over the flames, grasping at his watch and roll of money.

Second engineer, Mr. J. G. Lavelle, at deck decked was the hero of the fire. Blinded by smoke, he searched and handily worked his way through the burning grime gripping the levers by which the engines and pumps were kept in action. Black oil had his clothes singed and he was burned to a crisp and he was pulled away by his companion and other citizens during the week.

SATURDAY, MAY 29, 1898.

CURRENT COMMENT.

A family of ten were killed by an express near Ottawa—no doubt on a level crossing.

Mr. Harrison and Mr. Hill have signed a treaty and will build more railroads. They both had their victories as well as was at the expense of the non-combatants.

Mr. Roosevelt says he has no news paper correspondents with him and that additional money will be expended on other than press interests or the result of bribery. East Africa must be people with dictators or Tammany hall graduates.

Quite likely there will be another side to the story of how and why they term it. Men of Magrath treated the gentleman whose wife wouldn't eat couldn't live with him. A man is not commonly used in that way by the public thinking they have cause for it.

On April 20th the Canadian banks had \$224 millions loaned for commercial purposes, against \$29 millions on March 31st and \$67 million on February 29th. The increasing demand for money reflects the heavy business activity of the country. The increasing loans indicate that the banks are meeting the demand liberally.

France spends about five times as much on her army as she does on the industrial training of her children. Germany gives to educational purposes one-third of the amount she devotes to military purposes. In Austria and Russia the proportion between school and military expenditure is about 100 to 1. In France it is 10 to 1. Her army nine times as much as she devotes to public education. Britain is exemplary in that regard. The military budget stand as eight to four, while the school budget stands as 10 to 1. In the rule of primitivity in military expenditure Switzerland which devotes twice as much to the education of her children as she lays out on the purchase of powder and shot and the pay of her defenders.

Premier Asquith declines to count the United States among the naval powers that might be confined against Britain. In consequence, the fleet of the Republic is not considered in calculating the strength of the British navy.

In Parliament he justified the course on the ground of naval effectiveness—the only ground on which he would be at liberty to justify it speaking as premier and not as a member of his own party. He said that another reason entitles him to the decision in the public mind—and probably in Mr. Asquith's mind, too. Jingoists to the contrary, and our family sports notwithstanding, neither Britain nor Canada need be afraid of motion of censuring in the destination of the other. Each can get along very well without trying to grab the other's property, and each has a pretty clear idea that its own property would be less safe in the other's hands.

There is no room for either to censure the other among its enemies.

It is easy enough from this distance to censure the Arkansas men who in their state of mind, judge, break into a plantation and kidnap a negro accused of assault on a white woman. That is because from a distance one looks on the offence with cool reason and says the law should be left to take its penalty. But in the presence of the facts and reasonable ways to pass the sentence of law ought of course to be always deplored and must be punished if proper respect is to be given to the law. It is also reasonable to assume, however, that they wore masks, thus assuming full personal responsibility for the blood they shed. This suggests that the law may not hold a very high place in the opinion of a small portion of the community.

Fever Provincial System. St. Thomas, Ont., May 27.—"Provincial ownership of long distance telephone lines is now generally accepted by the Southern Counties Independent Telephone Association at the first annual meeting held in the city hall this afternoon."

Fell in Hail and Drowned. Barrie, Ont., May 27.—Tommy, the five years old son of Joseph Chapman, a carpenter, fell into a telephone post hole in which two feet of water had accumulated.

VARIOUS VIEWS

MUST WHACK UP.

Calgary Albertan—It seems that the city of Edmonton does not like to break with the Indians who visit this city in large numbers very frequently, and a larger percentage of the take off. Therefore the city has allowed the Indians to payment of \$25. But in future, so the city hall reporter of the Alberta Indian Affairs Department, will be of undesirable kind \$100 before he can go forth and begin business of fleeing the town innocent and ignorant of our population.

THE SESSION.

Montreal Herald—The first session of the new parliament did little but mark the beginning of a new session marked by obstruction and displays of bad blood. We have seen one or two of the new members, however, who have a business session, rather than a political session, and the business done has been of a more or less permanent character. The new party leaders were far apart. The estimates were passed to the house before being submitted to the diminished revenue in the revenue and the extraordinary expenditure in the Transvaal war, in a most hasty way. The desire to make party capital did not carry the opposition to vote on the bill. The bill which was proposed to support the credit of the Grand Trunk Pacific by a loan of \$100,000,000, was voted down. This was a measure whose fate was determined by individual judgment on the part of the members, not by reference to the railway law, especially the clause which forbids the company to do anything which would interfere with the railway law.

The House was quite unanimous when facing the one single issue incident of the session, that was the vote of the naval service in England.

STOCK CONDITIONS GOOD.

Price University High and Stock in Fine Shape.

Calgary, May 26—Reports from every part of the provinces are to the effect that the stock was in better condition than last winter. The cattle losses due to the past winter from all causes will not exceed one per cent. The market is in a good condition and prices have been very high, owing to the fact that the markets were in such good condition.

The farmers are going in more and more each year for stock feeding herds and the market is in a good condition. In early spring, as a result there is a large amount of prime beef available for export, having been fed on the grain of the province.

Prices are also unusually high, and even the graders bring as high a price this year as were paid in 1897.

Never have the western cattle ranchers seen so many animals,

"One day we counted zebras, gophers and antelope. There were 100,000 or 40,000 within a square containing one-tenth of a circle. There were 100 lions, 10 elephants, 100 rhinos, 100 buffaloes, 100 elephants and 100 giraffes. The animals are hard to approach, but the lions are rather bold snappers on the wing than fighters."

POLICEMEN HAD TO PAY FOR THEIR JOBS

Divorced Wife of Aid. Proulx Throws Light on the Rake-Off System he Operated in Police Department.

Montreal, May 27.—Startling evidence was given at the session of the Montreal police commission yesterday by Madame Duvergne, the separated wife of Oscar Proulx, brother of the late Commissioner of Police. Mrs. Proulx stated that while she was living with her husband seven years ago, he had sold her for her Oscar Proulx and that this money was to be paid over to Aid. Proulx as the price of their position on the force. The man, named Fontaine, Constables Omer and Fontaine, had left several instalments of the sum he had been paid for the price of reinstatement on the force after dismissal.

Another Xavier Lazarus, had given her an overcoat, money and she wanted some of it, but her husband lent her it was for Aid. Proulx and was paid off by him. Lazarus, on the force. Another, Eustachette Lal, had lent her \$25 in different instalments for the same purpose.

A determined effort was made by Mr. Leblanc to discredit Mrs. Proulx's testimony and to prove that she was an acknowledged prostitute and not living by prostitution. But the witness denied this thoroughly, a circumstance which time she repeatedly broke into tears. She, however, said she had taken the step to expose her husband's infidelity on her husband, whom she thought had treated her well.

CATTLERS THIEVES ROUNDED UP.

Two Stettler Men Plead Guilty at Red Deer Court.

Red Deer, May 26.—Special sitings of the Supreme Court of Alberta were opened here yesterday.

Mr. Stettler, president. The sittings were arranged for the trial of five men from one cattle ranch, each of whom the head of a large number of cattle.

The men are Jack Inkley, Irene Inkley, Louis Sutay and Joe Cardinal. A large number of witnesses were on hand, and the interest was great. At the end of the proceedings, the court room being crowded from the commencement of the trial, the accused were represented by P. J. Nolan, K.C., and C. L. Durie, and the accused, of Fort Saskatchewan; T. L. Tweedie, of Calgary, and A. D. McGilivray, of Stettler.

Considerable surprise was manifested when, at the opening of the trial, the plaintiff called to the庭 of four steers from A. D. Bell; to the theft of one steer from one Weller and two steers from a German settler named Ulrichsen. Louis Selvy also pleaded guilty.

Joe Cardinal's trial occupied the attention of the court for the greater part of the afternoon. The trial of the two steers, the property of Warburton & Chase, of Lethbridge, was probably take all day tomorrow.

Two more charges have been laid against Mr. Durie, and he stands in Bell, against whom two cases are now pending.

It is most likely that the hearing of the case now before the court will be concluded before Saturday.

GALGARY CHURCHES UNITE.

Do Not Wait for Their Denominations To Take Formal Action.

Calgary, May 26.—If the congregations of all the Presbyterian and Methodist churches in Canada were to unite, they would be second in size those of Wesley Methodist and Grace Presbyterian. It would be an accomplished fact in the very near future.

Both churches are situated in the west, and are increasing rapidly in numbers, and the need is urgent for new buildings. In view of the fact that the properties are close together, and the cost of building is high, and such projects are now pending. It is most likely that the hearing of the case now before the court will be concluded before Saturday.

EARL UNREADY.

Winning, May 25.—War between England and Germany without a moment's notice, and who is here on his way to the Pacific coast, expects "Germany to be beaten." He has no objection to quarrel with England, when they will loose the dogs of war without a moment's notice, and he was asked if he added, however, that England is awakening to the crisis, and is prepared. The Earl, a member of the Canadian Corps of engineers in Canada to serve as training schools for a naval reserve. The Earl said, "I am not surprised, and he himself is a distinguished soldier."

IRRIGATION CONTRACT.

Contractors for Large Portion of C.P.R. Irrigation Canl. Get Contract in Utah.

Calgary, May 26.—The C.P.R. irrigation company, who completed a large contract on the C.P.R. irrigation works last year, has secured another contract in Utah.

The project will reclaim 200,000 acres of land in the mouth of the Little River irrigation project in Idaho.

The contractor will ship their plant and 200 head of horses from Glesheim, Germany, and bring them by rail in 27 cars for transportation.

Cory Bros. had a large contract with the irrigation company five years ago, which took two years for completion, and another one last year.

This decision was arrived at by the city council last night after a long meeting, during which we kept up a classic phrase employed by the mayor after the meeting.

The contractors, however, They will keep all the money now due to the All-American Building company, and pay to have checks presented, and to pay all the claims now against the bill for material and labor applied against the account, and when the accounts are correct.

Police on the Job.

To make the administration of the building doubly sure, the mayor in person went to the police station after the meeting, and the police chief in charge that the city has now taken over the new city hall, and instructed the police to keep watch over the new city hall in Regina, when he had charge of that building.

The mayor's story was to the effect that when the tenders were given the figures were given to the newspaper, and the city council, who were to print only the lowest tender, but alas they printed them all, and demanded a warlike alderman, name unknown, but nevertheless three blue lines.

Where the Trouble Began.

The meeting, which scheduled for 8 o'clock, was not called to order until 9:30 p.m., and the first step taken by his worship was to ask the members of the press to leave.

"I must ask the gentlemen present to retire, or else give them what goes on," said his worship and all eyes were turned on the offenders.

Thereupon the members of the press left.

They were having friendly conversation, when suddenly a boat had reached the shore, and a boatman came up below the surface.

Up to early this morning, the boat had been unable to get away, and it was thought that the boat had been washed down by the eddies.

Three Perished.

Victoria, B.C., May 27.—The boat which bore William Illing, his five-year-old son and John Lethbridge, a steamship engineer, from Sidney to the camp of the Nine Mile Brick and Tile Company, a few miles from Victoria, sank in the early hours of Friday morning, San Juan Island.

The provincial police have been unable to learn the cause of the accident, as far as their fate has been solved as far as it ever will be.

Heavy Rains Cripple Railways.

New Orleans, La., May 27.—Train service on many roads in Louisiana was suspended yesterday because of heavy rains, and the New Orleans and Shreveport lines were closed.

Up to early this morning, the weather was still bad, and the damage to the lines was still uncertain.

Two steamers, the property of Warburton & Chase, of Lethbridge, was completely taken out of service.

URONA CELEBRATION OF EMPIRE DAY

Four Schools Joined in Making Day
Practical and Pleasant exercises
directed by Mr. Hogg and Dr.
Campbell, M.P.O.

Special Correspondent

It is not *style* in the towns and cities that patriotism exists or that loyal days are observed. It is the *spirit* of patriotism. In the small country district, where the sons there are oftentimes from foreign lands, the vital spark of love and loyalty to the governing class shows itself with vigor. An instance of this could be seen in the celebration of Empire Day which was held Friday, the 23rd of May. Lives though the day were simple, the spirit was high, and the singing on the whole were something but forcible, large numbers turning out to witness the games. The schools, one at Watskwetaw, Ponoka, Brooks, Hatfield Hill, Pine Creek, Bright View, Chester, and Lethbridge, and the four schools were gathered together, namely, the Atherton High School, the school at Lethbridge, the school at Ponoka, and the Foothills Creek School.

Among the prominent speakers of the day were Mr. J. C. Campbell, Mr. Hogg, and Dr. W. A. Campbell. Mr. Hogg who held a great gathering at "National Building," and was one of the first addresses, even went so far as to say that the greatest east-raising field in the world will have its center in Canada, but it is in the contest of schools if all are well as well. Bell's farm is all farm as well.

Bell's farm is all farm as well as artificial means. His entire farm is under ditch, and practically no land is left unirrigated by irrigation by irrigation. On the other hand the Canadian farmers who are backing up the movement are not so fortunate, for they have not had their success with fortitude and enthusiasm, carrying his honest slogan of "Let's do it." They have turned the steppes, outlined the steps in constructing a nation, from its foundation to its consummation or its downfall.

Dr. Campbell, who spoke of "Empire Day" was a man of the people, well known and well liked, after delineating the origin and scope of Empire Day, he told mighty British Empire, following the "Great heat that is heard around the world," that we must apply ourselves upon winning their support. Applied specifically intended, part were given to the evolution and development of a vast cadet corps. That fine Empire Day, the march used. Not only did this drill surpasses in all its parts, but it will stand in the view capa excede much favorable com- zent, but the heat here drift by for dialogue "British Empire," where the "mother minus nations" received their children, brought up to date.

The singing of the boys quartette was devotional to the majority of the audience, with carelessness of attack and regard for the acro, and paid only to the quartette, but by the entire school.

Miss Keane, the vocalist of the day, "Strike the Harry," and "The Swallows."

The fine celebration was entirely due to Mr. Campbell, Mr. Hogg, and Mr. Bell, Mr. Ostend, thanked her on behalf of the people for her interest, and the singing of the boys quartette, the not-to-be-forgotten Empire Day.
